### **AIMS OF UEMO WORKING GROUP ON PREVENTIVE ACTIVITIES**

The main task of this working group ( PA ) is to promote health promotion and preventive activities among the European GP's. We must find the right instruments to support GP's in different countries and in different circumstances. We need the evidence-based knowledge, the good quality and enough resources for this task.

EU health policy strategy ( The public health ) shall provide the collection of health data of European citizens. UEMO could present a standard check –up –form, which could be filled out and evaluated uniformly in all the countries uniformly in hole Europe. PA-working group is continuing the draft

PA-working group is considering EU health policy strategy's meaning for GP's in Europe and we should to find the main targets. How could we influence its contents?

We are trying to find the new possibilities to cooperate with other organizations in health promotion. Especially we must always remember the work against tobacco, alcohol and narcotic. Young people and children are the most important groups.

The task of PA –group should never end. The PA-group should always look after what is happening in Europe and what GP's could do for better life of their patients.

Pirkko Valtola/Finnish UEMO Head of Delegation  
2<sup>nd</sup> April 2001
