Note concerning UEMO questionnaire on CME

Preamble

The objective of the enclosed questionnaire is to obtain a status for CME/CPD in the UEMO member organization countries. Since the current questionnaire is equivalent to that sent out three years ago, this will make it possible to form a basis for a written description of the development in CME/CPD in Europe.

As agreed in the CME working group, it was not considered sufficient to attempt to describe the status - there is a need for a more dynamic model by which the UEMO can continuously update its policy in order to keep pace of political developments and in order to facilitate the setting of political targets.

With the starting point in the information on national movements and targets concerning the themes identified in the questionnaire and the identification of national barriers against a desired development of conditions concerning CME, the need for change in the UEMO CME policy can be identified and initiated.

The last questionnaire was only answered by about 60 percent of the member organizations which caused difficulties drawing conclusions in analyzing the answers. Therefore, the Working group hopes that all the member organizations will answer this questionnaire as it will improve the quality of the data.

With regard to the transparency of the answers we have listed definitions of terms used in the questionnaire. These definitions are made after lengthy discussion in the Working group. However, the Working group is aware that there may be national conceptual divergence in the terms. If this is the case it therefore would be expedient if you mention such other definitions of the terms.

Please note that in this questionnaire there are three possible answers: yes no and N/A (not applicable)

In the case of questions please contact the chairman of the Working group, Peter Mortensen, e-mail pm@dadlnet.dk or telephone: +45 5678 8780.

Definition of terms employed

Accreditation - procedures by which an official organ confers formal recognition of the competence of an organization or individual to carry out specific tasks.

Certification - procedure by which a third party confers written assurance that a product, a system or a person fulfill certain specified ground requirements.

Registration - systematic documentation concerning an individual doctor's CME activities.

Registration systems can involve the setting of quantitative norms. By deciding what can be registered, qualitative norms are incorporated into the process.

UEMO – PRESIDENCY

doctor fulfills specified CME requirements?) yes noX
N/A

- If yes, who is responsible for recertification?

- Central authorities? yes no
N/A

- Medical organizations? yes no
N/A

- Other yes no
N/A

Please specify:

Does recertification take place on the background of quantitative CME registration? yes noX
N/A

- Are qualitative CME factors taken into consideration? yes no X
N/A

Are special diplomas issued following completion of courses? yes noX
N/A

- If yes, does this diploma system result in a form of sub-specialization of general practitioners in your country? yes no
N/A

Comments:

- Is the current status (or direction) desirable from the point of view of the GP's? yesX no
N/A

- Are there specific barriers to the attainment of the goals set?
(use extra sheet if necessary)

4. Resources

Who finances CME?

- Doctors? yes no
N/A

- The authorities? yes no
N/A

- The industry? yes no
N/A
(check one or more of the above)

Are there other inducements than economic ones? yes no
N/A

- For example, collegial recognition in academic organizations? yes no
N/A

- Other? yes no
N/A

Please specify: 1) By completing a Personal Learning Plan , 2) By implementation af national or regional guide-lines

Comments:

- Is the current status (or direction) desirable from the point of view of the GP's? yes no
N/A

- Are there specific barriers to the attainment of the goals set?
(use extra sheet if necessary)

5. Responsibilities

Are the medical political organizations directly involved in the responsibility for the individual doctor's CME activity? yes no

N/A

- Is there in the system a policy formulated on this? yes no

N/A

- In this system are organizational instruments set up to help the individual? yes no

N/A

- In this system are there action systems formulated and set in force? yes no

N/A

Are the national academic organizations involved in the development of CME? yes no

N/A

- Involved with the formulation of the requirements of the content of CME? yes no

N/A

- With the gathering of data concerning CME? yes no

N/A

Does organized registration of CME take place? yes no

N/A

Is a national policy formulated concerning registration? yes no

N/A

If yes:

- Is that policy formulated and set in force by the health authorities? yes no

N/A

- By the medical association? yes no

N/A

- By the academic organizations? yes no

N/A

Comments:

- Is the current status (or direction) desirable from the point of view
of the GP's? yes X
no N/A

- Are there specific barriers to the attainment of the goals set?
(use extra sheet if necessary)

1) N/A = NOT APPLICABLE
